

Master Farm Family Awards

The third group of Master Farm Family Award winners has been announced by Hon. D. A. Ure, Minister of Agriculture.

To winners are:
John G. Poronzi Family, Willingdon.
J. W. Horaford Family, South Edmonton.

Floyd Giltson Family, La Glace.
Victor Watson Family, Aldridge.
Each master farm family receives an award of \$1,000, an engraved plaque and a name plate for the farm entrance.

Objectives of the master farm family program are to provide a practical recognition of farm and family progress and approved agricultural practices. The advantages of the farming vocation and the wholesomeness and dignity of rural life are emphasized and farm youth are provided with a goal by the program.

Ure reminded the people of Alberta that one of the main purposes of the program is to find and honor those families who have made outstanding progress in farming, home-making and citizenship.

Some slogans of the Master Farm Family are Good Farming, Right Living and Clear Thinking," he said. "I hope the program will continue to encourage and maintain the high ideals of good farming practices, good family relationship and good citizenship."

With the continuance of the program from year to year, the high standards required for nomination are becoming more fully appreciated by the people of the province. A total of 36 families were nominated for the third Master Family Award, a total slightly less than that nominated last year.

Candidates for the master farm family awards must be Canadian citizens who have operated farms in Alberta as owners or tenants for 20 consecutive years, (military service is included). At least three neighbors must nominate a candidate and the candidate must personally accept the nomination.

The winners are selected on a district and regional basis and confirmed usually by a provincial committee. The regions correspond roughly to the soil zones of Alberta. Both technical and practical agricultural and home economists are represented on all committees.

Under the system of selection, provision is made for an evaluation under 87 factors related to the farm, cultural practices, family, and community life. It will be seen therefore that a very high standard of performance is required and that a family can measure up only by a creditable record in all or most of the points of this very comprehensive score card.

The main divisions are the home and farmstead, operation and organization of the farm, family and community life and management and business methods. Possible maximum scores have been calculated carefully for each division according to its relative importance and the record of each candidate is assessed in relation to the possible scores.

The Minister of Agriculture congratulates the master farm families for their fine records of achievement and also commends the other candidates who were honored by nomination. He expresses sincere appreciation for the work done by the various selection committees.

A Veteran Reminisces

Will the Day of Remembrance pass into a realm of tradition? Will it become simply another holiday? Or will the ideals that first inspired that day not only remain, but become a foundation for daily living through the nation?

To a younger generation, the men and women who passed through 1914 to 1918 may be but historic figures. Admittedly, they were very human, sometimes exhibiting weaknesses or even becoming the prey of unwholesome passions. But deep in the heart of each one of them was a sense of nobility, a sense of duty, a sense of right and wrong, the pleasure of a true work, true love, true devotion.

late-free.
Our nation united with others had, at that first Remembrance Day, passed through a superhuman effort. The sacrifices had been appalling, but at that time the belief was, "It was not in vain." Then, remembering the lives that had been given, the thought would not be seen again. Heads were bowed in a new determination to fight to make the qualities that sustained the nations through those days real and enduring.

Today the torch is passed along, the battle is still on. In subtler forms the material forces of fear, greed and hate are planning to subvert and enslave the world. Each individual has his place in the battle-line, because that battle-line is not only on some foreign field but runs through every heart, every home and every industry in our country.

Someone has said, "As I live, so lives my nation." We in Canada still enjoy freedom as individuals and live by absolute moral standards and the guidance of God. So on this Remembrance Day as heads are bowed not in silence, each man, woman and child is dedicating to the inspired task of rebuilding the world for which our heroes died.

Those Over 65 May Get Pensions

Under the authority of the Old Age Assistance Act and the Old Age Pensions Act (Alberta), the government of the Province of Alberta is prepared to pay 50 percent of any allowable assistance up to a maximum of \$40 a month to persons who have reached the age of 65, but are not 70.

To qualify for this form of assistance, persons in the age group must have resided in Canada for the twenty years immediately preceding the date of the proposed commencement of assistance payments, or it he must not be so old he must have been present in Canada prior to those 20 years for aggregate period equal to twice the aggregate period of absence from Canada during those 20 years.

According to the Act any person in receipt of an allowance under the Blind Persons Act, or the War Veterans' Allowance Act, 1945, of a pension under the Old Age Security Act, cannot qualify for assistance under this scheme.

An unmarried person with an income of \$240 per year or less, exclusive of this form of assistance may obtain the maximum allowance of \$40 per month if his income in excess of this amount, the allowance will be reduced to a figure so that the combined income and assistance will not exceed the sum of \$220 per annum. In respect to a married person living with his spouse, the corresponding figure is \$1,200 per annum; while for a married person who lives with his spouse who is blind within the meaning of the Blind Persons Act, the figure is set at \$1,200 per annum.

To avoid delay in making payment when the scheme comes into effect, application forms have been prepared and any person who can qualify for and desires this form of assistance may obtain a set of these forms from their local municipal office, or directly from the Old Age Pensions Branch of the Department of Public Welfare. The forms should be completed and forwarded as soon as possible either through the municipal office directly to the Old Age Pensions Branch, Administration Building, Edmonton.

Arrangements have been made with the municipal association whereby the local municipal officials will act as applicants in the preparation of the forms. If so desired, Applicants are reminded that proof of age preferably in the form of a birth certificate, and proof of residence for the stipulated period in Canada must accompany all applications as otherwise assistance cannot be approved.

The Gleichen Cadeo Corps

Part 1 orders.
Capt. U. A. Jones, M.C., chief instructor, 828 Gleichen Cadeo Corps, Parade—14 Hwy. in Truxa Hall. Dress—black uniform.
Training Fall in at 10:00 hours on 2nd Nov. 1951, in Truxa Hall, Gleichen, Alberta.

Town & District

There was a very good crowd at the annual Legion dance held on Monday evening.

Mrs. E. Walker has returned to town after spending some time in the Calgary hospital and is much improved in health.

Miss C. Doyle of Medicine Hat spent the weekend in town the guest of Mrs. Cam Evans. She left on Monday night 4:15 train for the eastern city. Miss Doyle was a former member of the teaching staff in Gleichen school.

The Legion aspects to open a canteen in the Legion Hall sometime after the first of the year. The 2nd Battery had a canteen once in their drill hall but it was closed many years ago.

Duck and goose hunters were out in force on Monday. Most of them had good luck and for the next few days they will live on wild fowl.

Ex-Mayor Wm. Stelmacher is at present in a Calgary hospital. He was taken there one day last week when he became very ill. At the present writing it is not known just what is the matter.

Herbert Paul Young, who has been a guest at Eventide home for more than four years died early Saturday morning at the age of 48 years. Mr. Young was very well known about town. He was born in Elgin, Manitoba but had lived in Alberta most of his life. He came to Gleichen from Calgary. The remains were shipped to Calgary for burial by G.W. Evans. The funeral took place Tuesday afternoon.

Jack Hendrick was kept night porter at the C. P. R. depot for he past several years is leaving to take charge of a station near Coram. He and his family will be joined by their many friends in Gleichen. Jack always took an active interest in the Legion here.

Despite the cold raw weather there was a good attendance at the Legion skedjoo Monday afternoon. The boys about the house seemed to enjoy themselves and it was not until nearly dark before the final shots were fired for those who did not care to shoot arrows and hams were raffled off and everyone had a chance to take something home.

Frank Woods of Brooks spent the weekend in town visiting his mother Mrs. E. Woods and brother Leo.

The United Church W. A. met at the home of Mrs. J. Wilson Wednesday afternoon with 23 members and one visitor present. Final arrangements for theazaar to be held on November 24th was made. Refreshments were served and a pleasant hour followed.

Mrs. and Mrs. N. A. Riddell and Mrs. Riddell's mother, Mrs. E. A. Hambroff left for Calgary last week end where they will accompany F.L. and Mrs. A. W. Riddell to Sandpoint, Idaho, where they will visit a sister of Mrs. Riddell in that city. They will return Mrs. Hambroff will not be with them.

Stamp Out T.B.

During the past few years, Canadians have been in the happy position of being able to observe a tremendous decrease in the number of lives lost to tuberculosis, a disease commonly referred to as "the white plague." What was a few years ago a leading killer has become a lesser scourge owing, in part to increased facilities for diagnosis and to improved diagnostic equipment, particularly mass X-rays. To the tuberculous associations go much of the glory for this winning fight over an age-old enemy.

Since the work of the Alberta Tuberculosis Association, and of the other provincial associations, depends so largely for its success upon the proceeds from the sale of Christmas Seals it is a privilege to heartily endorse your age-old enemy.

Christmas seals have been mailed to 250,000 homes in Alberta, during the past few days and the Association is hoping to receive at least 100,000 contributions averaging \$1.85. Since many of the usual contributions amount to \$1.00 or less, it will be necessary for a great many Albertans to give well over that amount in order to reach the provincial objective of \$185,000.

Christmas Seal funds are spent on preventive services, health education, occupational therapy, rehabilitation nursing and welfare services. Tuberculosis is gradually being recognized as a cause of death, but the incidence of the disease remains high. In Alberta there are at least 1,200 under treatment and there are probably another 1,000 unknown cases.

USE YOUR FREEZER
The recent advancement in freezing food to preserve it enables many homemakers to take a greater variety of different products this way. The home economists say that freezing is one of the most practical and highly appreciative developments of our day. It is quite natural that homemakers wonder sometimes, what they think of their extra special desert when they did not have frozen strawberries or all the other out-of-season farm delicacies they are so nonchalantly taking. Of course, not everyone is able to have a home freezer, but there are a great number of clever plans through which they can.

When homemakers take advantage of such freezing facilities, they find it a simple matter to conserve large quantities of foods. For those who have neither a locker nor a freezer a host of commercially frozen foods are available in the shops.

A freezer is a real boon to the home maker who goes to business or active in other things. To them time is money and everyone who has a home freezer, but there are a great number of clever plans through which they can.

Coming home after a busy day, they may be neither time or energy to prepare foods which require long slow cooking. Here is where frozen foods can save the day. Such things as baked beans, soups and casseroles can be prepared in three or four times the regular amount, then divided up into cartons and frozen. For future meals just think of getting down to a Saturday night supper of baked beans and brown bread prepared and frozen a month before hand. With careful planning even the extra busy person can freeze a good supply of fruits and vegetables to use when they are out of season, for it takes little time and energy to get them ready for freezing. In this way, with a variety of foods practically ready to use, preparing meals does become a simple matter.

CALL

ATTENTION PASSENGER CAR OPERATORS

JANUARY 1ST, 1952 HAS BEEN FIXED AS THE LAST DAY ON WHICH CAR OWNERS WILL BE PERMITTED TO OPERATE PASSENGER CARS WHICH HAVE NOT BEEN INSPECTED AND APPROVED PURSUANT TO SECTION 14a OF THE VEHICLES AND HIGHWAY TRAFFIC ACT.

HAVE YOUR VEHICLE TESTED AND APPROVED AT THE AUTHORIZED TESTING STATION OF YOUR CHOICE NOW AND AVOID LAST MINUTE RUSH AND INCONVENIENCE.

HON. E. C. GERHART,
Provincial Secretary,
Government
of the
Province of Alberta.

MORE POWER TO THE Farmer.

When you keep up with agricultural progress your farm operation becomes a good-paying business. That's where The Commerce can help you. Your Commerce Manager represents a Bank that has for many years taken a keen interest in promoting better farming and in looking after Canadian farmers' banking needs. Why not pay him a visit?

Be sure to ask for your copies of these booklets. They are available at any Commerce branch.

"More Power to the Farmer" explains farm mechanization in keeping with good business practice.

"Keeping the Farm in the Family" shows how a farm can be run as a profit-sharing partnership.

"Fishes on the Production Line" deals with grazing control and soil conservation necessary for better land use.

"Good Breeding Shows" outlines the combination of factors which help you to realize top production.

"Quality Makes Sales" tells how to get quality with volume at an economical production cost.

They tartan-clad Edmonton lassies added a colorful touch as they stood eagerly awaiting arrival of royal couple at parliament buildings during their visit at that city—Central Press Canadian.

Do You Think You're Fireproof?

YOU DON'T STOP PAYING for fire insurance on your home just because you may have lived successfully for 30 years without suffering a fire. Points out Health magazine in an editorial, by the same token, wise parents don't neglect the immunization of their family just because they've never had a close relative or a friend's child struck down by one of the preventable diseases—diphtheria, whooping cough, tetanus (lockjaw) or smallpox.

Continued Vigilance Is Imperative

"Wise parents and their physicians may never have had a close friend or relative struck down by one of these insidious killers, but they realize that continued vigilance is imperative," declares the Health League of Canada magazine. The effectiveness of a permanent immunization program has been demonstrated by several Canadian cities. Take Brantford, Ontario, for example. For the past 20 years the Telephone City boasts a completely clean record so far as diphtheria is concerned—not a single case reported since November, 1930. The last death from diphtheria in Brantford occurred in 1929. This is claimed to be a world record among cities of comparable size.

Immunization Gospel A Must

Or take Toronto, with only one case and no diphtheria deaths in the three years 1948-50; and Hamilton, Ontario, with its notable achievement in prevention. But elsewhere in Canada, despite the availability of safe and simple immunization, there were 306 deaths from 13,187 cases of whooping cough, and 48 deaths from 421 cases of diphtheria last year. "It is clear," concludes the Health League magazine, "that the gospel of immunization must still be preached."

Must Reduce Accidents To Keep Insurance Rates Down

TORONTO.—Merlin Donald of the All-Canada Insurance Federation said that several companies are thinking of quitting the automobile insurance field because they are paying out too much to claimants that they operate at a loss or make only a small profit. He told the Canadian Good Roads association:

"As costs go up, through more accidents and more expensive accidents, insurance rates have to go up. If rates continue to go up, it can be assumed that more and more people will stop driving and work without insurance. In other words, our product will be priced out of a substantial market. The only way we can be to reduce insurance rates is to cut down the number of accidents."

Suggests King Visit Canada To Recuperate

VANCOUVER, B.C.—The Vancouver Sun suggests that King George VI should spend a month or two in Canada, where he recuperates. "The king is King of Canada," the newspaper said in an editorial. "The royal monarch is unfortunately not a well man, but in the future the king should play a larger part in the government of Canada."

The editorial suggested the king should open Parliament annually.

Fanny and Otherwise

Editor: "Have you submitted these poems anywhere else?"

Poet: "No, sir."

Editor: "Then where did you get that black eye?"

Employer: "Do you think you know enough to be useful to this office?"

Office Boy: "Know enough? Why, I left my last place because the boss said I knew too much."

Teacher: "What tense is 'I am beautiful'?"

Pupil: "Past."

Harper, seeing a friend Cash standing in the rain outside an expensive seaside hotel, went up to him and said, "What are you doing to do, old chap? Stay out and get wet or go in and get soaked?"

She: "They seem such a happy married couple."

He (absently): "You can't go by looks, my dear. They may be saying the same thing about us."

"And what are you doing about saving electricity?"

"We've stopped the electric clock and my husband is using an ordinary razor."

Everyone in the village had vainly searched for a lost coin. Finally the local nitwit went out and brought her in.

"How did you find her so quickly?" the owner asked in surprise. "Why?" the nitwit explained. "I thought if I were a cow where I'd go, and I went there and there she was."

"I don't understand how you came to marry her?" a remark was made to a friend whose marriage had failed. "You admit that you didn't particularly care for her—then how did she get you?"

"Well," came the rejoinder. "It's not something you can explain very easily, but I suppose it has been like this because she wanted me worse than I didn't want her."

During an informal talk on physiology, the lecturer said: "It has recently been found that the human body contains sulphur."

"Sulphur?" exclaimed a girl. "And how much sulphur is there in a girl's body?"

"The amount varies," said the speaker.

"Oh," returned the girl, "and is that why some of us make better matches than others?"

The clerk at the bookshop told a student, "Here's a book that will do your work for you."

"Great," said the student. "Give me two of them."

It Was Pig Feed, Not The Pigs That Increased This Time

It was the pig feed—not the pigs—that increased so quickly for Leon Bushnick, of Cambridge, Mass. He picked up 1 1/2 tons of sour dough in his garbage-disposal truck. As he drove along, the dough began to rise. Bushnick first noticed the increased load when the dough began coming into his cab. He tried to get to the hog farm as fast as he could, but traffic delayed him 15 minutes. Police came along, declared Bushnick's truck a "public nuisance" and recommended that another truck share the load. Both trucks arrived at the pig farm full to the brim.

The earliest dated event in history is 4241 B. C., the year in which the Egyptian calendar was established. Plish brought the French to St. Pierre and Miquelon off the Newfoundland coast in his 16th century and fishing has been the staple industry of the islands ever since.

Passenger Cars Must Have Safety Stickers Jan. 1st

All passenger cars and motorcycles operating in Alberta must bear safety stickers by Jan. 1st to avoid prosecution.

This was announced by Hon. E. C. Gerhart, provincial secretary. He said instructions have been issued to assure that no cars or motorcycles without safety stickers will be allowed to operate on Alberta roads and highways after January 1st. Owners of cars which do not bear the approved government safety sticker will be subject to prosecution after that date.

Mr. Gerhart said that the safety testing campaign began in July and since then motorists have had ample time to have their cars tested. Charge for the safety test is one dollar and garages and service stations in all parts of the province are operating as approved testing stations.

The provincial secretary pointed out that the purpose of the safety testing campaign is to make the roads and highways of Alberta safer by keeping faulty vehicles off the roads. He suggested that motorists who have not yet had their cars tested do so soon to avoid needless inconvenience.

NOTICE OF COMPLETION OF VOTERS LIST

Notice is hereby given under the provisions of Section 108 of the Town and Village Act that the Voter's List of the Town of Gleichen, Alberta, has been prepared and that a copy of the said Voter's List is posted in the office of the secretary-treasurer.

The posted list is open to inspection during business hours.

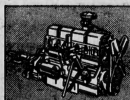

Any qualified elector may make application for the correction of any error or omission in the said Voter's List by serving notice upon the secretary-treasurer in writing on or before the first day of December, 1951.

Dated at Gleichen, Alberta, this 2nd Day of November, 1951,

A. HORN,
Secretary-Treasurer.

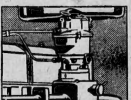

POWERED FOR THE JOB
Four great engines! The 22-hp. 125-hp. 150-hp. and 175-hp. engines all deliver outstanding performance with remarkably low fuel and maintenance expense.

VALVE-IN-HEAD DESIGN
For 29 years, Chevrolet has built valve-in-head engines. No other manufacturer has built so many low-cost engines with the same overall economy and proven efficiency of Chevrolet's valve-in-head.

BLUE-FLAME COMBUSTION
Wings all the usable energy from every drop of gasoline. Blue-flame combustion is possible only with valve-in-head engine design. It gives greater power and better performance, through more efficient utilization of fuel.

POWER-JET CARBURETOR
At low speed, on grade or at regular highway speeds, Chevrolet's Power-Jet carburetor maintains the proper mixture for perfect combustion. This plus fast warm-up, smooth, quiet running, means surprisingly low operating costs.

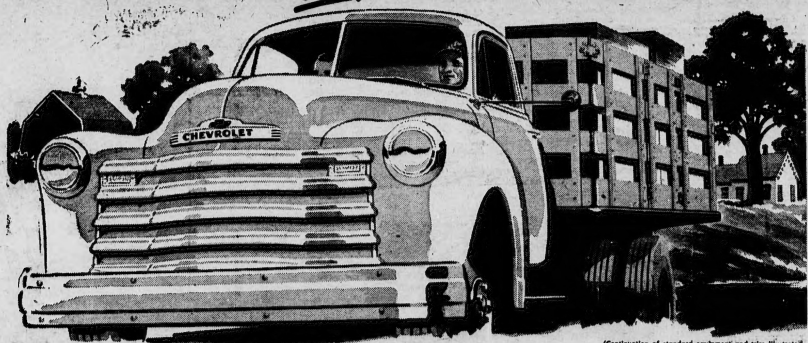

LONG LASTING BRAKES
The greater self-excitation of Chevrolet hydraulic brakes provides smoother, safer braking on bumps and potholes. This means less wear and tear for the brakes on your truck.

BONDED BRAKE LININGS
No rivets! On light and medium-duty models, the lining is bonded directly to the brake drum to increase life and to eliminate danger of loose or broken drums on lining wear. Two get extra wear—safe brakes.

greater economy
engineered in!
... to do more work for your money.

Just take a look at the engineered-in economy features of Chevrolet trucks. Features like valve-in-head engine design, Blue-Flame combustion, Power-Jet carburetor, long lasting brakes and a host of others. All the vast engineering and manufacturing experience of Canada's largest truck builder is used to give you greater economy on the job.

And Chevrolet economy goes far beyond low operating costs. It means engines, chassis

and cabs will stand up under rough, tough use month after month, year after year. It means building extra ruggedness and extra efficiency into Chevrolet trucks at lowest cost.

Every day, more and more truck users are switching to new Chevrolet trucks. Take a tip from these truck-wise buyers and get engineered-in economy and more work for your money.

CHEVROLET TRUCKS ARE FIRST IN SALES—FIRST IN VALUE!

GLEICHEN MOTORS

BEST FOR ANY RUN IN '51

There was a very large crowd at the Remembrance Day services held in the Community Hall last Sunday. Every seat in the hall was occupied and more had to be brought in to seat the late comers. Chaplain Rev. W. Morrison of the local Legion was in charge. Assisting were Majors Parkinson and Hansen of the Salvation Army. The address, which was a splendid one, was delivered by Rev. J. L. Strachan. After the service all adjourned to the moment when Last Post was sounded, two minutes of silence observed, the flag hoisted to the top of the mast and wreaths laid by the various organizations. Later the members of the Legion went to the cemetery and laid wreaths on the graves of the departed veterans.

The stroke of a whale's tail, which can smash even a large boat, is the fiercest blow that can be struck by any animal.

SEEDTIME HARVEST

DR. F. J. GREANEY,
Lect. Extension Farm Service,
University of Alberta,
Edmonton, Alberta.

Nothing means more to the welfare of Western Canada than well-managed farms and good farm homes. Today, as never before, farming requires not only a wide variety of skills but also a lot of technical knowledge. In other words, successful farming calls for well-trained and educated young men and women.

Trained Facilities. No country in the world provides better facilities for the teaching of agriculture than does Western Canada. The Faculties of Agriculture and Home Economics at our prairie Universities, and the Provincial Schools of Agriculture in Manitoba, Saskatchewan and Alberta are equipped and staffed to provide broad and sound education and training for agricultural people. Short Courses. Each fall and winter the agricultural colleges and universities throughout Western Canada provide a wider variety of Short Courses in Agriculture for young men and women. Courses in Field Crops, Farm Machinery, Home Economics, Dairying, Poultry and Horticulture are available for young men and women, 16 years and over, who intend to farm. They are designed to emphasize the practical aspects of farming. To meet the needs of farm people most Short Courses are of one or two weeks duration only, and the fees are low. Anyone who attends one of these courses will return home not only better equipped to carry on his farming operations but better qualified to give leadership in his own rural community.

We urge Line Elevator Agents to encourage the young farm people of their own districts to attend an Agricultural Short Course this fall or winter. Today, training in agriculture is an important key to successful farming. For application forms and further information, write directly to the Dean of Agriculture at your Provincial University, or to The Principal of your nearest School of Agriculture (Brandon, Man.; Regina, Sask.; Okla., Yarmouth and Fairview, Alta.).
